EXPERIENCE

CTO

FLÂNEUR

since january 2017

A mobile app to share favorite local spots and travel destinations.
- Migrated back-office from Parse to Firebase
- Redesigned software architecture to a Kickstarter-inspired MVVM
- Improved search feature via an Algolia-backed real-time integration
- Full-UI redesign implementation

Founder CEO/CTO

STATIUM

since septembre 2014

A platform about soccer data analytics, bringing the techniques of sabermetrics to the soccer world.
- Selected by the French startup accelerator Startup42 in 2016
- Designed machine learning models to evaluate soccer players
- Built data visualization tools for the web

iOS & Web Freelance Developer

BOOTSTRAGRAM

september 2014 / december 2016

- iOS & web freelance projects for Deezer, Culturebox, Sourdoreille…

CTO

eduPad

january 2012 / august 2014

Educational apps for students aged 6 to 18, for iOS & Android.
- Recruited and managed technical team of 5, using Scrum
- Developed an app factory for eduPad's 100+ apps (iOS & Android)
- Designed and developed a scalable back-office to support eduPad's growth from 5k to 250k monthly average downloads, as well as even more intense peaks during marketing campaigns.
- Over 8.4M apps downloads during my experience at eduPad
